Additional Information: [full citation](#), [abstract](#), [references](#), [citations](#), [index terms](#)

This report presents the results of a collaborative working group activity focusing on the use of information technology (IT) to integrate social and ethical issues within computer science or information systems courses. The report provides an organizational approach for classifying exercises, based on the issue each one addresses and the course or courses in which it may fit. The exercises in this report are classified by the information technology to be used and the course or courses addressed ...

+(vulnerability +or +risk +or +security) +and +polulating +and +database +and +(module +or +engine)
SEARCH

Nothing Found

Your search for +(vulnerability +or +risk +or +security) +and +polulating +and +database +and +(module +or +engine) did not return any results.

You may want to try an [Advanced Search](#) for additional options.

Please review the [Quick Tips](#) below or for more information see the [Search Tips](#).

Quick Tips

- Enter your search terms in lower case with a space between the terms.

sales offices

You can also enter a full question or concept in plain language.

Where are the sales offices?

- Capitalize proper nouns to search for specific people, places, or products.

John Colter, Netscape Navigator

- Enclose a phrase in double quotes to search for that exact phrase.

"museum of natural history" "museum of modern art"

- Narrow your searches by using a **+** if a search term must appear on a page.

museum +art

- Exclude pages by using a **-** if a search term must not appear on a page.

museum -Paris

Combine these techniques to create a specific search query. The better your description of the information you want, the more relevant your results will be.

museum +"natural history" dinosaur -Chicago
